Child Care Health Consultation

Shared hugs, toys and activities and illnesses are all part of a child's environment in child care facilities.

The primary goal is to ensure a safe learning environment for young children so they are prepared to enter kindergarten healthy, safe and ready to learn.

A strong relationship with your CCHC will result in:

- Up to date policies and procedures
- Safe medication administration
- Increased immunization rates
- Reduction in communicable disease
- Reduction in injuries
- Consistent adherence to sanitation guidelines
- Regular trainings on health and safety
- Improved customer satisfaction

Who is a CCHC?

A healthcare professional with knowledge and skills in public health, pediatric health, child development, local and state child care regulations, and has a general interest and respect for child care providers.

The CCHC understands health laws impacting families with children in and out of the home care setting. As educator, the CCHC is skilled in teaching children, parents and child care staff about general health and safety practices.
