Voluntary Agricultural Districts and Enhanced Voluntary Agricultural Districts

The purpose:

...Is to promote the preservation of farmland in Guilford County, so that development and growth will be accompanied by protection of farms from non-farm development and other negative impacts on properly managed farms, recognizing the importance of agriculture to the economic and cultural life of the county.

Does my land qualify? It must be:

- 20 acres of qualified forestland or
- 10 contiguous acres of qualified farmland or
- 5 contiguous acres of qualified horticultural land
- As defined in GS 105-277.2

What are the benefits of enrollment, shared by both the Voluntary Agricultural District and the *Enhanced* Voluntary Agricultural District?

- No requirement to connect with Guilford County water and/or sewer systems, inside a district.
- The assessments will be held in abeyance, without interest, for qualifying farms, inside a district, until improvements on such property are connected to the water or sewer system.
- Public notification of agricultural operations to property owners, residents and other interested persons.

Are there additional benefits for enrolling in the *Enhanced* Voluntary Agricultural District?

- Sale of non-farm products: Landowners participating in Enhanced Districts may receive up to 25% of gross sales from the sale of non-farm products and still qualify as a bona fide farm and remain exempt from county zoning regulations
- Participating landowners are eligible to receive up to 90% cost share for installation of "Best Management Practices" under the Agriculture Cost Share Program.
- State agencies, departments and institutions that award grants to farmers are encouraged to give priority to landowners participating in Enhanced Districts.
