

OVERVIEW

A Home Occupation is an accessory use that allows the operation of selected businesses with a residence. Home Occupations are permitted in the following zoning districts: Agricultural (AG), all Residential zones (RS & RM), Mixed Use (MXU), and the Neighborhood Business (NB) zones. Home Occupations must be conducted entirely within the residence. Some home office uses do not require a Home Occupation Permit. Home office uses that do not entail physical public interaction on site and do not employ persons from outside the home may not need a Home Occupation Permit. However, an application will still need to be submitted.

TYPES OF PERMITTED HOME OCCUPATIONS

Home Occupations include, but are not limited to, Typing Services, Beauty Parlors, Doctor/Dentist Office, Architects, Food Catering, Handcrafting, and Accountants. This is not an inclusive list. Please contact a Planner at 336-641-3334 if you have a question about the eligibility of a specific business.

MAXIMUM AREA

The area set aside for the Home Occupation shall occupy no more than twenty-five (25%) percent of the gross floor area of the residence. More than one Home Occupation may be approved per residence. However, the maximum area occupied by all Home Occupations is still 25% of the gross floor area.

OUTSIDE STORAGE

No outside storage or display of items associated with the Home Occupation is permitted.

SIGNS

Home Occupations are allowed one (1) freestanding identification sign with a maximum of four (4) square feet in area and four (4) feet in height. A permit for the sign is not required.

HANDICAP ACCESSIBLE

Certain Home Occupations are required to meet standards set by the North Carolina State Accessibility Code. Contact a Plan Examiner at 641-3334 for more information.

OPERATION

The Home Occupation must be conducted entirely within the residence. It must be a use which is clearly incidental and secondary to the use of the dwelling unit for residential purposes and does not change the character of the residence. Home Occupations are not permitted in a detached garage or other detached accessory structure, except for an accessory dwelling unit.

No display, stock-in-trade, or commodity sold not made on the premise shall be permitted. No items brought in for resale can be sold. For catering and handcrafting, only handmade items made in the dwelling may be offered for sale.

Only one (1) person who is not an occupant in the residence may be employed as part of the Home Occupation and report to the residence to work or conduct business. All other persons employed as part of the Home Occupation shall not:

- Report to work at or near the residence.
- Go by the residence to pick-up pay checks, orders, supplies, or other items related to the business.
- Associate with the residence in any manner which could be interpreted as part of the normal employer/employee relationship.

APPROVAL PROCEDURES

In order to legally operate a Home Occupation, the operator must obtain approval from the Planning and Development Department. Certain types of uses will require a Home Occupation Permit. A Home Occupation Permit does not include any additional local, state or federal permits or licenses required for a specific business.

To obtain a Home Occupation Permit, the operator of the business should make application through the Guilford County Enterprise Permitting and Licensing (EPL) Civic Access Portal. If the applicant is leasing or renting the property, including persons living in apartments or mobile home parks, a notarized statement of permission to operate the Home Occupation is required from the property owner. A Planner will issue a Zoning Certificate if determined that the proposed business qualifies or is exempt and may forward your application to the Permitting Section.

The Permit Section will need the property address, the type of business and a detailed description of activities associated with the business. Contact the Permit Section at 336-641-3707 for the cost of the permit.

If the residence is on a septic system, an evaluation and review by the Guilford County Environmental Health Department may be required. They can be contacted at 336-641-7613 for more information.

This document is intended for public information purposes only. It summarizes and omits some provisions. It is not to be construed or used as an official interpretation of the Guilford County Unified Development Ordinance in any legal proceeding.
