

GRADING PERMITS

Grading permits are required for certain land disturbing activities to protect bodies of water and adjacent property from sedimentation and erosion. Guilford County issues permits for unincorporated County, Jamestown, Stokesdale, Summerfield, Whitsett, Sedalia, Pleasant Garden and Oak Ridge.

A grading permit is required when any area over one (1) acre (43,560 square feet) is grubbed or graded. Examples of development requiring grading permits include: subdivisions, shopping centers, commercial and industrial development, apartments, townhouses, churches, and recreational development. Exemptions from grading permit requirements include: disturbed areas less than (one) 1 acre in size, agriculture, mining, and area~ under State or Federal jurisdiction.

A grading permit issued by Guilford County is valid for one (1) calendar year, unless the permit is revoked or the project is completed. The permit can be renewed for an additional six (6) month period by making a written request to the Guilford County Planning and Development Department, Inspections Division. Reissued grading permits do not have to pay another permit fee (unless revoked), but the erosion control surety must remain in effect.

APPLICATIONS

The following items are needed to apply for a grading permit: (1.) Four (4) copies of an Erosion Control/Grading Plan prepared and sealed by a registered professional engineer, architect, landscape architect, or registered surveyor. Three (3) copies should be submitted to Guilford County Planning and Development and one (1) copy should be submitted to the Guilford Soil and Water Conservation District, 3309 Burlington Road, Greensboro, N.C. 27405, telephone number 336-375-5401. (2.) A grading permit application. (3.) Financial responsibility statement. If the person financially responsible is not a resident of North Carolina, a North Carolina agent must be designated in the statement. (4.) Erosion control surety in the amount of \$1,500.00 per acre

demolition landfills are \$2,000.00 per acre). Sureties include bonds, irrevocable letters of credit, cashier's check, cash, and escrow accounts payable to Guilford County. (5.) Payment of the grading permit fee based on disturbed acreage (see fee schedule).

Plan should be submitted thirty (30) days prior to commencement of the land disturbing activity. Plans are reviewed in the order that they are received and plans can be (1) approved, (2) punch-listed, or (3) denied for various reasons. A punch-listed plan may be corrected and resubmitted. Denial of a plan entitles the applicant to a public hearing within fifteen (15) days after receipt of written notice of disapproval. The Guilford County Planning Board hears appeals within thirty (30) days of the appeal request and makes a recommendation to the Guilford County Board of Commissioners. The Commissioners will render a final decision within thirty (30) days of receipt of the recommendations from the Planning Board. If the appeal is denied, the applicant may further appeal to the North Carolina Sedimentation Control Commission.

EROSION CONTROL INSPECTIONS

Guilford County Erosion Control Staff will periodically inspect the sites of land disturbing activity to determine compliance with the plan. They will indicate any areas that are weak and help answer any questions that might arise. One important inspection is the point at which the devices (i.e., silt fences, sedimentation pits, etc.) have been installed. Maintenance inspection is the final inspection. The permit can be finalized after the site improvements have been made and after the site has been stabilized.

CIVIL PENALTIES

A violation of the erosion control law could result in a civil penalty of up to \$5000.00 per day.

PLEASE READ THE FOLLOWING INFORMATION:

If a Grading Permit is issued it is valid for up to one (1) year from the date it is issued. If circumstances warrant it, it may be extended for six (6) months after the one (1) year period. Upon written notice the Grading Permit may be revoked for failure to install devices as shown on the plan in a prompt fashion, or for failure to maintain the devices once they have been installed. If a Grading Permit is revoked, all other development permits and approvals are withheld until the property is once again in compliance with Guilford County regulations. Also, upon written notice a Civil Penalty (fine) can be instigated against the property owner and/or additional Financially Responsible Party (if any) for violations of Guilford County's Soil Erosion and Sedimentation Control Ordinance. This penalty is up to \$5000.00 per day and is assessed daily for every day the property is in violation. (Interfering with or hampering an inspection can result in a civil penalty without written notice).

GUILFORD COUNTY GRADING PERMIT REQUIREMENTS

A grading permit must be obtained **before** any area over 43,560 square feet (one (1) acre) is grubbed or graded.

The Inspections Division requires that four (4) copies of the Erosion Control/Grading Plan be submitted for review thirty (30) days prior to commencement of activity.

An Application and Financial Ownership Responsibility Form must be submitted and signed by the property owner or one who has power-of-attorney for the owner. **(North Carolina resident signature required. if person financially responsible is not a resident of North Carolina).**

A surety is required before a grading permit can be issued. The amount is determined by multiplying \$1,500.00 x acre(s) disturbed (\$2,000.00 per acre for landfill). **The property owner must provide this.** A surety must be cash, cashier's check, performance bond, Irrevocable Letter of Credit, or escrow account payable to Guilford County.

Pay the appropriate grading permit fee (see **fee schedule**). One (1) copy of the Erosion Control/Grading Plan must be sent to the **Soil and Water Conservation District** for their review if the disturbed area is greater than one (1) acres. Mail to: 3309 Burlington Road, Greensboro, N.C. 27405, Telephone Number 336-375-5401.
